

Stork family

Stork is the award-winning backbone of our premium street luminaire product family. This unusually potent (up to 41000 lm!) luminaire is an expression of the VIZULO core values: exceptional quality, and flexibility. For almost a decade now, it has been illuminating the streets of the Netherlands, Switzerland, Iceland, and many other countries all across the globe. Our Stork can make your life so much easier. You're getting world-class vandal

protection, enhanced durability, surge protection, automatic midnight dimming, and quick tool-less enclosure access with modular drivers. Rest assured, there is a right Stork for any environment: we offer limitless configuration options and a wide selection of drivers, optics, sockets (Zhaga/NEMA), reflectors, and connectors. Inspired by nature, created by engineers, approved by science – that is the premium Stork product family.

Colibri family

Colibri

Power **5 - 45 W**
Lumen output **Up to 6 028 lm**

Colibri Midi

Power **5 - 87 W**
Lumen output **Up to 13 100 lm**

Solve all your budgeting challenges with the unprecedented value of the Colibri street luminaires. Featuring an IP66 rating, vandal protection, robust aluminium body, brightness up to 6028 lm, and many hardware customization options, Colibri can be the missing link in urban projects of any scale. With the best price-performance ratio on the market. There are two spigot options: post-

top and side-entry. You can also choose between the regular and the floodlight models – all versions come with full ENEC/ENEC+/Class I/Class II certification. Further customization includes different drivers, optics, sockets (Zhaga/NEMA), reflectors, and connectors. Colibri – wholesale pricing, luxurious design.

Blackbird family

Inspired by the beautiful blackbird, which in real life is all black except for a yellow eye-ring, we have created the BLACKBIRD family where the round shape is a strong signature feature. Possible to emphasize it even more with the Halo version, giving a possibility to add unique design characteristic visible from afar. BLACKBIRD Mini and Micro family continues the story, symbolizing those small birds sitting

on tree branches, singing melodious songs in different directions but in the end leaving everyone with calmness inside. BLACKBIRD Mini and Micro luminaires, reduced in size, with the possibility of different mounting and added accessory options which result in a various atmospheres ensure that these luminaires are capable of fitting in divergent areas.

Eagle family

Light up even the most prominent venues with the mighty EAGLE. This high-power projector is a perfect match for film studios, stadiums, and even airports. While it can reach brightness up to 301 450 lm, our EAGLE 4 head is not only about raw power. You can choose between different color temperatures (3000, 4000, 5000 K) and rendering indexes (70, 80, 90). If you deal with live broadcasts or massive movie sets,

you will love the HDTV optimized flicker-free performance. And there is an optional laser pointer – to calculate the perfect sports field lighting. The four heads are individually adjustable, providing even better illumination of the area. This projector is also available with a NEMA socket connected to the driver box. EAGLE 4 heads – European quality, stellar power.

Eagle 1 Head

Power **255 - 600 W**
Lumen output **Up to 79 160 lm**

Eagle 2 Head

Power **510 - 1200 W**
Lumen output **Up to 156 575 lm**

Eagle 3 Head

Power **765 - 1 800 W**
Lumen output **Up to 228 472 lm**

Eagle 4 Head

Power **1020 - 2400 W**
Lumen output **Up to 301 450 lm**

Mustang

Free, wild, powerful, and beautiful. It all characterizes Mustang. High-quality floodlight. It has power up to 700 W and light output up to 103 320 lm to lighten territories, sports fields, airports, seaports, railways infrastructure, industrial plants, and parking areas. Tool-less opening ensures quick and easy installation and maintenance. A wide range of optics, drivers, connectors allows adapting luminaires to specific project needs.

Power **50 - 700 W**
Lumen output **Up to 103 320 lm**

Owl

Owl - the first Vizulo floodlight. Powerful yet cost-effective, dedicated for sports premises - small and medium sports fields and large territories such as car parks, airports, seaports, cargo handling terminals, warehouses, etc. It is a beautiful luminaire that has a durable and time-tested design. Tool-less opening ensures quick and easy installation and maintenance. A wide range of optics, drivers, connectors allows adapting luminaires to specific project needs.

Power **85 - 380 W**
Lumen output **Up to 55 455 lm**
